## Thanks for thorough coverage

To the Editor:

I would like to commend the Daily Record and reporter Michael Daigle for ongoing coverage of affordable housing issues

The significance of Daigle's reporting has been felt at a state and local level.

"Mike Daigle did a tremendous job educating the public on the affordable housing crisis in our state" said Arnold Cohen, who is employed as policy coordinator of the Housing & Community Development Network of New Jersey.

Housing Alliance co-chairman Phyllis Doyle of the United Way commented "Mike has brought attention to the issues that impact on all of our lives. He has increased awareness of the fact that there is a need for more affordable housing for people we know, people we care about, people we need."

On behalf of the many local organizations that are working to provide affordable housing options, and for the thousands of Morris County residents who need these options, I thank Daigle and the Daily Record for their quality coverage of this critical issue.

DANIEL C. MCGUIRE
